Getting Started

Last updated February 27, 2026

Welcome to the Next.js documentation!

This **Getting Started** section will help you create your first Next.js app and learn the core features you'll use in every project.

Pre-requisite knowledge

Our documentation assumes some familiarity with web development. Before getting started, it'll help if you're comfortable with:

- HTML
- CSS
- JavaScript

w to React or need a
